

Thank you and the United Nations Women's Guild for your generous donation of 6,500.00 CHF.

We at The Children of War are very grateful for your contribution to our organization's computer class project. Above all, the children in Afghanistan are most appreciative of this kind contribution as they look forward to receiving computers and other supplies to enhance their educational experience.

It means a great deal to receive this generous donation from such an esteemed organization like the United Nations since our program goals match so closely to the Women's Guild. Due to your generosity, we are able to further achieve our goal to educate and empower the young people of Afghanistan.
